Preface xvii

About the Authors xxii

PART I An Overview of Development

1	Introduction to Motor Development	1
	Motor Behavior	1
	Motor Development	2
	The History of the Field of Motor Development	3
	Current Trends in Motor Development	6
	Dynamical Systems Perspective	6
	Motor Development as a Lifespan Perspective	8
	An Interdisciplinary Approach to Motor Development	9
	Designing Research in Motor Development:	
	Cross-Sectional, Longitudinal, or . . . ?	10
	The Domains of Human Development	12
	The Importance of Motor Development	14
	Development, Maturation, and Growth	15
	Development	15
	Maturation and Growth	17
	General Motor Development Terms	18
	Developmental Direction	18
	Differentiation and Integration	19
	Gross Movement and Fine Movement	19
	The Process-Product Controversy	20

Terms for Age Periods Throughout the Lifespan	21
Stages of Development	23
Summary	24
Key Terms	25
Questions for Reflection	26
Internet Resources	26
References	26

2 Cognitive and Motor Development 29

The Term Psychomotor or Motor?	29
Jean Piaget and Cognitive Development	30
Piaget's Theory of Cognitive Development	30
Infancy: The Sensorimotor Stage and Motor Development	33
Childhood: Preoperations and Motor Development	36
Later Childhood and Adolescence: Cognitive and Motor Development	37
Concrete Operational Stage	37
Formal Operational Stage	39
Adulthood: Postformal Operations	40
Adulthood: General Theories of Intellectual Development	40
The Notion of Total Intellectual Decline	40
Partial Intellectual Declines	41
Knowledge Development and Sport Performance	42
Summary	44
Key Terms	45
Questions for Reflection	45
References	46

3 Social and Motor Development 47

Socialization	47
Self-Esteem Development and Physical Activity	48
Social Influences During Infancy	51
Social Influences During Childhood	52
Play	52
Family	53
Social Influences During Older Childhood and Adolescence	55
Team Play	56
Gender Role Identification and Movement Activity	57

Social Factors of Adulthood	58
Social Learning and Ageism	60
Other Social Situations Likely to Affect Motor Development	60
The Exercise-Aging Cycle	62
Avoiding the Exercise-Aging Cycle	65
Summary	66
Key Terms	67
Questions for Reflection	68
Internet Resources	68
References	68

4 Perceptual-Motor Development 70

What Is Perceptual-Motor Development?	70
Other Interpretations of Perceptual-Motor	70
The Perceptual-Motor Process	73
Is All Movement Perceptual-Motor?	74
Balance	74
Spatial Awareness	76
Temporal Awareness	77
Body and Directional Awareness	78
Perceptual-Motor Theories: Kephart and Delacato	78
Kephart's Perceptual-Motor Theory	78
Delacato and Hemispheric Dominance	79
Researching the Effectiveness of Perceptual-Motor Programs	80
Summary	81
Key Terms	81
Questions for Reflection	82
Internet Resources	82
References	82

PART II Factors That Affect Development

5 Prenatal Development Concerns 84

Drugs and Medications	85
Recreational Drugs	85
Prescriptive Drugs	90
Nonprescriptive Drugs	90
Obstetrical Medications	91

Maternal Diseases	91
Rubella	91
Human Immunodeficiency Virus	91
Toxoplasmosis	92
Rh Incompatibility and Erythroblastosis Fetalis	92
Diabetes Mellitus	93
Genetic Factors	94
Chromosome-Based Disorders	94
Gene-Based Disorders	94
Prenatal Diagnostic Procedures	95
Maternal Nutrition	99
Birth Weight	101
Exercise During Pregnancy	103
Summary	106
Key Terms	106
Questions for Reflection	107
Internet Resources	107
References	107
6 Effects of Early Stimulation and Deprivation	112
Effects of Early Stimulation	112
Programs to Enhance Early Motor Development	113
Gymboree	114
Swim Programs for Infants and Preschoolers	116
Suzuki Method of Playing the Violin	118
Head Start Programs	120
Infant Walkers	121
Johnny and Jimmy	122
Effects of Early Deprivation	125
Hopi Cradleboards and Infant Development	125
Deprivation Dwarfism	125
Anna and a Case of Extreme Isolation	126
The "Young Savage of Abeyron"	127
Concepts Concerning Stimulation and Deprivation	128
Critical Periods	128
Readiness	130
Catch-Up	131

Summary	132
Key Terms	134
Questions for Reflection	134
Internet Resources	134
References	135

PART III Physical Changes Across the Lifespan

7	Growth and Maturation	137
	Measuring Growth in Length and Stature	137
	Growth in Length and Stature	139
	Measuring Body Weight	145
	Growth in Body Weight	145
	Combining Body Weight and Height: Body Mass Index	148
	Stature and Weight: Interrelationship with Motor Development and Performance	152
	Adolescent Awkwardness	155
	Measuring Changes in Body Proportions	156
	Changes in Body Proportions	156
	Changes in Sitting Height	156
	Growth in Shoulder and Hip Width	156
	General Body Configuration	157
	Changes in the Center of Gravity	158
	Physique	159
	Body Proportions: Interrelationship with Motor Performance	159
	Measuring Skeletal Health	160
	Skeletal Development	161
	Exercise, Skeletal Development, and Health	163
	Maturation and Developmental Age	164
	Skeletal Maturity	165
	Dental Maturity	166
	Age of Menarche	167
	Genitalia Maturity	167
	Maturation: Interrelationship with Motor Performance	167
	Summary	169
	Key Terms	170
	Questions for Reflection	170

Internet Resources	171
References	171

8 Physiological Changes: Health-Related Physical Fitness 175

Cardiovascular Fitness	175
Heart Rate	176
Stroke Volume	176
Cardiac Output	177
Maximal Oxygen Consumption	178
Physical Activity and Cardiovascular Fitness in Childhood	179
Cardiovascular Endurance Field-Test Data on Children and Adolescents	180
Physical Activity and Cardiovascular Fitness in Adulthood	180
Muscular Strength	182
Defining and Measuring Muscular Strength	182
Age-Related Changes in Muscular Strength: Laboratory Tests	183
Age-Related Changes in Muscular Strength/Endurance: Field Tests	184
Muscular Strength Training	186
Mechanisms of Increasing Muscular Strength	190
Flexibility	191
Flexibility: Performance Trends	192
Declining Flexibility and Aging: Causes and Therapy	193
Body Composition	194
Defining Obesity	194
General Growth Trends of Adipose Tissue	195
Prevalence of Obesity in the United States	195
Association Between Childhood and Adulthood Obesity	198
Field-Test Measures of Body Fat	200
Relationship of Obesity to Motor Development and Performance	202
Gender Differences in Health-Related Physical Fitness	203
Factors Associated with Physiological Fitness in Children and Adolescents	203
Points of Controversy and Concern	204
Summary	205
Key Terms	205
Questions for Reflection	206
Internet Resources	207
References	207

9	Movement and the Changing Senses	213
	Understanding the Mechanics of Vision	213
	Physical Development of the Eye	214
	Development of Selected Visual Traits and Skilled Motor Performance	214
	Visual Acuity	215
	Binocular Vision and Depth Perception	218
	Field of Vision	221
	Effects of Aging on Depth Perception and Field of Vision	222
	Eye Dominance	223
	Tracking and Object Interception	223
	Motor Development of Blind Children	225
	Head and Trunk Control	225
	Independent Sitting	225
	Creeping	225
	Independent Walking	226
	Prehension	226
	Play Behavior of Blind Children	227
	The Nonvisual Senses	227
	The Proprioceptive System	228
	The Cutaneous System	229
	Summary	230
	Key Terms	231
	Questions for Reflection	232
	Internet Resources	232
	References	232

PART IV Movement Across the Lifespan

10	Infant Reflexes and Stereotypies	235
	Importance of the Infant Reflexes	235
	Infant versus Lifespan Reflexes	235
	Role of the Reflexes in Survival	236
	Role of the Reflexes in Developing Future Movement	237
	The Reflexes as Diagnostic Tools	238
	Pinpointing the Number of Infant Reflexes	239
	Primitive Reflexes	240
	Palmar Grasp	240

Sucking Reflex	241
Search Reflex	242
Moro Reflex	242
Startle Reflex	242
Asymmetric Tonic Neck Reflex	243
Symmetric Tonic Neck Reflex	243
Plantar Grasp Reflex	244
Babinski Reflex	244
Palmar Mandibular Reflex	246
Palmar Mental Reflex	246
Postural Reflexes	246
Stepping Reflex	246
Crawling Reflex	247
Swimming Reflex	247
Head- and Body-Righting Reflexes	247
Parachuting Reflexes	249
Labyrinthine Reflex	250
Pull-Up Reflex	250
Stereotypies	250
Summary	253
Key Terms	253
Questions for Reflection	254
Internet Resource	254
References	254
11 Voluntary Movements of Infancy	256
Categorizing the Voluntary Movements of Infancy	257
Head Control	257
Body Control	257
Prone Locomotion	261
Upright Locomotion	262
Reaching, Grasping, and Releasing	265
Anticipation and Object Control in Reaching and Grasping	268
Bimanual Control	268
Summary	270
Key Terms	271
Questions for Reflection	271
References	271

12	Fine Motor Development	273
	Assessing Fine Movement	273
	Categorizing Manipulation	275
	The Development of Prehension	276
	An Alternate View of the Development of Prehension	278
	Exploratory Procedures and Haptic Perception	280
	Holding a Writing Implement	281
	Cross-Cultural Comparison of Development of the Dynamic Tripod	285
	The Dynamic Tripod from 6 to 14 Years	286
	Drawing and Writing: Movement Products	287
	Drawing: The Product	287
	Handwriting: The Product	290
	Finger Tapping	291
	Fine Motor Slowing in Late Adulthood	291
	Summary	293
	Key Terms	294
	Questions for Reflection	294
	References	295
 13	 Fundamental Locomotion Skills of Childhood	 297
	Walking	297
	Dynamic Base	298
	Foot Angle	298
	Walking Speed	298
	Walking with External Loads	301
	Running	301
	Selected Improvements in the Running Pattern	301
	Developmental Sequences for Running	302
	Developmental Performance Trends for Running	307
	Jumping	308
	Preparatory Phase	308
	Takeoff and Flight Phases	308
	Landing Phase	308
	Developmental Sequences for the Standing Long Jump	309
	Developmental Sequences for the Vertical Jump	310
	Developmental Performance Trends for Vertical Jumping	313
	A Variation of Jumping: Hopping	314

Combining Fundamental Movements: The Gallop, Slide, and Skip	319
Summary	323
Key Terms	324
Questions for Reflection	324
Internet Resources	325
References	325

14 Fundamental Object-Control Skills of Childhood 328

Overarm Throwing	328
Developmental Stages of Throwing	328
Developmental Performance Trends for Overarm Throwing	331
Factors That Influence Overarm Throwing Performance	336
Accounting for Gender Differences in Overarm Throwing	339
Catching	340
Developmental Aspects: Two-Handed Catching	340
Developmental Sequences for Two-Handed Catching	341
Developmental Aspects: One-Handed Catching	345
Factors That Influence Catching Performance	346
Striking	349
Developmental Aspects of One- and Two-Handed Striking	349
Stationary Ball Bouncing	350
Kicking	352
Punting	356
Summary	359
Key Terms	359
Questions for Reflection	360
Internet Resource	360
References	360

15 Youth Sports 365

Where Children Participate in Sports	367
Why Children Participate in Sports	367
Participation: Competence Motivation Theory	369
Why Children Drop Out of Sports	370
Sport Participation: Controversies	370
Medical Issues	371
Psychological Issues	378

Youth Sport Coaching	381
Who's Coaching Our Children?	381
An Increasing Need for Educating Coaches	381
Current Coaching Certification Programs	382
Arguments Against Mandatory Coaching Certification	383
Evaluating Coaching Effectiveness	383
Guidelines for Effective Coaching	384
Parental Education: An Attempt to Curb Violence	384
Rights of Young Athletes	385
Youth Sports: Entering the 21st Century	385
Summary	388
Key Terms	389
Questions for Reflection	389
Internet Resources	389
References	390

16 Movement in Adulthood 394

Balance and Postural Sway	395
Falls	399
Strategies to Avoid Falls Among the Elderly	401
Walking Patterns of Adulthood	401
Driving and Older Age	403
Adult Performance on Selected Motor Activities	405
Activities of Daily Living	406
Age of Peak Proficiency	407
Adult Performance During High Arousal	410
Movement Speed in Adulthood	411
Running Speed	411
Reaction and Response Time	411
Is a Movement Decline Inevitable with Age?	413
Compensation for the Movement Decline	413
Effects of Exercise on the Movement Decline	415
Effects of Practice on the Movement Decline	417
Physical Activity Trends in Adulthood	417
Teaching Movement Skill to the Older Adult	418
The World Health Organization Heidelberg Guidelines	420
Summary	422

Key Terms	424
Questions for Reflection	424
Internet Resources	424
References	425

PART V Assessing Motor Development and Implementing a Program

17 Assessment 428

Guidelines for Assessment	428
Why Assess?	428
What Variables to Assess	429
Selecting the Best Test	429
Preparing Students for Assessment	430
Instructor Preparation and Data Collection	431
Interpreting the Assessment Data	431
Formal versus Informal Assessment	432
Sharing Assessment Results	433
Types of Assessment Instruments	433
Norm-Referenced	433
Criterion-Referenced	434
Product-Oriented Assessment	434
Product- versus Process-Oriented Assessment: A Comparative Example	434
Product-Oriented Assessment	434
Process-Oriented Assessment	434
Selected Norm-Referenced Instruments	435
Bayley Scales of Infant Development	436
Bayley Scales of Infant Development II	436
Bruininks-Oseretsky Test of Motor Proficiency	436
Basic Motor Ability Test—Revised	437
Denver II	437
Selected Process-Oriented Assessment Instruments	439
SIGMA	439
Developmental Sequence of Motor Skills Inventory	440
Fundamental Motor Pattern Assessment Instrument	440
Test of Gross Motor Development—2	440
Assessing the Disabled	441
Instruments Used by Adapted Specialists	441
Brigance Diagnostic Inventory of Early Development	441

Purdue Perceptual-Motor Survey	444
I CAN	445
Aids in Assessing Motor Skills	446
Assessing Physical Fitness	446
The FITNESSGRAM	446
The Brockport Physical Fitness Test	447
The President's Challenge	449
National Youth Physical Fitness Program	450
National Children and Youth Fitness Studies I and II	451
Functional Fitness Assessment for Adults Over 60 Years	451
The Senior Fitness Test	451
Summary	452
Key Terms	452
Questions for Reflection	453
Internet Resources	453
References	453

18 Planning and Conducting Developmental Movement Programs 456

Preprogram Considerations	456
Philosophy	456
Facilities and Equipment	457
Personnel	462
Administrative Considerations	463
Advertising the Program	463
Registration	465
Orientation Meeting	465
First-Aid and Emergency Procedures	465
Cancellation Procedures	466
Drop-Off and Pick-Up Procedures	467
Computer-Assisted Organization	467
Curricular Considerations	467
Preprogram Assessments	468
Instructional Organization	468
Instructional Delivery Considerations	468
Postprogram Discussions	471
Parents' Workshop	472
Summary	472
Key Terms	472

Questions for Reflection	472
Internet Resources	473
References	473
