# Burapha University Library — BUU Library

Searching for information via Web OPAC

Web OPAC is a useful tool for finding information resources which are available in Burapha University Library. Web OPAC search results include availability, classification and location. If items were borrowed, the due date will also be shown.
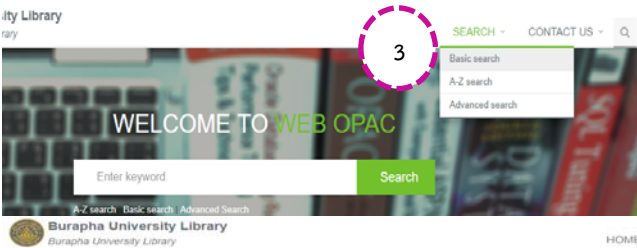

How to use Web OPAC
BUU Library — WE LOVE READING

1. Go to the library's website at www.lib.buu.ac.th
2. Click "Web OPAC" in SERVICES.

3. Click "Basic Search"
4. Type a word or phrase into the box below the "Search Term"
5. Select one specific field to search such as author, title, etc. from the drop-down list.
6. Click "Search"

7. Click "Advanced Search"
8. Type a word or phrase into the box and narrow your results by adding search term and filter such as Boolean operators, specific field, source types, location, collection, language, country, etc.
9. Click "Search"

10. Click "Alphabetically Search"
11. You can search through alphabetically order of Catalog Search such as title, author, subject, and journal title by typing a word or phrase into the box below the "Search Term" and select one field from the drop-down list.
12. Click "Search"

13. Refine your search results by clicking at the filters such as author, subject, year, etc.
14. You can select item "order by" and "show per page" to arrange your search result.
15. Click at the title you want.

16. You will see the details, including published, added author, subject, and source types.

17. You also see the location, collection, collection number, and status of the item.

18. Click "Hold" if you want to reserve the item.
